We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

This piece was specifically inspired by the cutting down of trees to establish parking lots. Although one isn't ordinarily affected in our day to day lives by the loss of trees, standing in a freshly bulldozed field with trees littering the ground, and watching as they are pulverized into toothpicks, can be a powerfully moving experience. The montage aspect of the photograph derives from an inability to capture and communicate in one shot the feelings from such an experience.
